Sir:

It has recently come to our attention that there may be an error in the patent term adjustment calculated by the U.S. Patent and Trademark Office for the above-referenced patent application. Specifically, the patent term adjustment pursuant to 35 U.S.C. 154(b) of 515 days indicated on the Determination of Patent Term Adjustment, PTOL-85, may extend the term of this patent by too many days. In particular, it is believe that the delay calculated by the Patent Office as being caused by the Applicants is 61 days too small.

Please review the calculation of the patent term adjustment and make corrections,  
if necessary.

Respectfully submitted,
